

# Support Lina's Law Today!

Please **contact your own state representatives** in both the Assembly and Senate to support "Lina's Law", a bill to **address safety concerns and save lives** on the Wolf River in Menominee County before **Dec. 2nd**.

It takes only two minutes, just follow these two simple steps:

- Find out who represents you in the Legislature, type in your home address on the following link:

<http://legis.wisconsin.gov/Pages/waml.aspx>

The web site will then provide you with the names and contact information for your legislators.

- **Send an email** with a short message:

"Please co-sponsor and support Lina's Law, LRB-3208/2. I believe in this legislation and feel it is needed because...

(add the following sentences or write your own)

...whitewater kayaking and commercial rafting comes with an inherent risk of injury. However, when proper steps such as proposed by the law are taken initially these risks can be significantly decreased."

...Wisconsin does not regulate this dangerous sport and coincidentally it had one of the highest rafting fatality rates last year."

Hopefully together we can sign this bill into law and make rafting a safe activity for all to enjoy. If you have any questions, feel free to contact us directly [verguandavid@gmail.com](mailto:verguandavid@gmail.com).

Thank you again for your support.

Lina's Family
